HEALTHY COMMUNITY INITIATIVE

SUMMER VENTURES

NORTHFIELD, MN

SUPERVISORS: ZACH PRUITT & JULIE BUBSER

Healthy Community Initiative's mission is to provide the opportunity for the Northfield community to create a broad, collaborative effort to improve the health and well-being of all of its members.

- Developed an secured funding for a youth micro-grant program
 - Led environmental education for youth in the Summer PLUS program
- Researched potential options for composting at a local elementary school
- Designed curriculum and data collection tools for a teenage pregnancy reduction effort

“I believe that many of the students [in the Summer PLUS program] feel uncomfortable speaking to adults and need one on one attention. Many need to learn to express themselves academically and constructively rather than by drawing attention to themselves in a negative way.”
